**ATTN: Office of Petitions  
Commissioner For Patents

Sir:

REQUEST FOR RECONSIDERATION OF PETITION FOR REVIVAL OF AN  
APPLICATION FOR PATENT ABANDONED UNAVOIDABLY UNDER 37 CFR 1.137(A)

In accordance with 37 C.F.R. § 1.137(a) and MPEP 711.03(c), Applicant respectfully submit this request for reconsideration of its earlier petition to revive the above reference application.

The earlier petition was dismissed for failure to make the showing required to establish non-receipt of an Office communication. In particular, the Petitions office stated that:

- the petition fails to describe the system used for recording an Office received at the correspondence address of record,
- the copy of the docket record submitted with the petition does not appear to be a “master docket”, and
- the copy of the docket record is illegible.

When incoming Office actions from the United States Patent & Trademark Office are received, they are electronically docketed and a hard copy of the Office action is placed with the paper file jacket. The electronically docketing, includes:

- entering information about the document type of the communication received, i.e., US- Final Office Action, along with the date the communication was received. A display of this information is provided herewith as Exhibit A.
- assigning a due date for the response to the appropriate practitioner. A display of this information is provided herewith as Exhibit B

Exhibit A is the master docket view based on an attorney docket number, specifically the above identified application having attorney docket number 2002P13477WOUS. This master docket view includes information pertaining to the current “Decision on Petition” but does not show the Notice of Allowance which was not received by the Applicant. Exhibit B is the master docket view based on a single practitioner. This master docket view of Exhibit B also includes information pertaining to the current “Decision on Petition” but does not include information pertaining to the Notice of Allowance.

In addition to including the date of the Office action and the due date for the response, the electronic docket includes the application number and attorney docket number (See Exhibit C).

As shown by the different Exhibits, information may be displayed via the docketing system by numerous ways including by application number, practitioner and attorney docket number. Furthermore, the electronic docketing is sufficiently reliable.

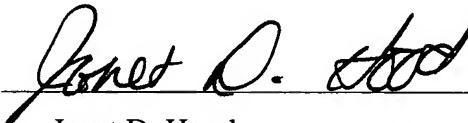

To the best of my knowledge, the Notice of Allowance was not received at the correspondence address of record. I have personally searched of the records, including the electronic docket and the paper file jacket with the application contents. The search indicates that the Office action was not received

Please grant any extensions of time required to enter this paper. The commissioner is hereby authorized to charge any appropriate fees due in connection with this paper, including fees for additional claims and terminal disclaimer fee, or credit any overpayments to Deposit Account No. 19-2179.

Respectfully submitted,

Dated: May 26, 2009
